I just received my new CU Belay Glasses a few days ago and got a chance to try them out today at the Gorge. As promised, here's my unbiased semi-professional opinion with a shot of them in action.

They are great I must say. Super clear image. Exquisite workmanship. Lightweight. And the "looking noble carrying case" is well, pretty darn cool too.

Everybody who tried them on thought they was the shiznit as well.

I didn't even have to bend my neck to freak out during the leader's sketchfest...
